

CT-3 CONE TESTER

The CT-3 Cone Tester is used for testing the conical expansion of the can bodies at the leading and trailing ends.

Model name	CT-3 Cone Tester
Sheet thickness	0.14 – 0.50 mm
Can-body diameter	45 – 330 mm
Can-body height	45 – 500 mm
Working force	max. 70 kN
Speed	13 mm/s working stroke
Electrical connection	380 V / 50 Hz
Fuse rating	20 AT
Dimensions	840 mm(W) x 650 mm(D) x 2100 mm(H)
Weight	700 kg

NEW MODERN DESIGN AND UPGRADED TO THE LATEST SAFETY STANDARDS

ADVANTAGES

- The strength of the first and last weld spots can be verified until fracture
- particularly important for the flanging capability of the can bodies

RETROFITTING

For all existing canbody lines
